150-300 K lbs is the maximum capacity for magazines, depending to the magazine size. The maximum they have been able to place in each magazine is 140K-280K lbs.

Subject: EXPLO Update

The remaining EXPLO personnel (10 workers and 1 truck/driver) were paid and are continuing work. The previous count of 24 workers and 2

9594123

trucks/drivers was inaccurate due to previous lay offs. I just received this information a few moments ago, but it did not occur today. Also, they are down to one magazine with available storage space. EXPLO personnel is attempting to secure additional space. Alternate operations will replace securing of M6 propellant should EXPLO fail in procuring additional magazine space by next week.
